

"Sovietskaya: a close encounter" Opening of Group Photo Exhibition (France, Netherlands)

Azerbaijan National Carpet Museum

03-11-2019 18:30

Despite the progressive and inexorable urban transformation, **the area of Sovietskaya still fascinates the many travelers who visit Baku.** What remains today is still beautiful, the human bonds remain strong and the inhabitants are happy there. It is this focus that the three photographers **Matthieu Haag, Nicolas Landemard** and **Rob Rombout** wanted to propose, by showing you this area through the viewfinder of their cameras. **This exhibition is a poetic stroll in the neighborhood, an external look at this heritage to preserve.**
